Dinner at Al-Maather Cave Park

The Al Ma'ather Cave Park is part of the land donated to the King Faisal Specialist Hospital and Research Center. Historically it was a place of recreation near Riyadh used for picnics and social gatherings. King Abdulaziz used to hold important meetings there. About a decade ago it was developed as a part of the hospital landscaping and is utilized by the hospital staff and their dependents. It also hosts several social events throughout the year. It is believed that the old Bedouins used it as a place to stay when they came for meetings or to visit.
